**Re: Petition to Cancel Ragan and Massey's Registration for  
Glufosinate-Ammonium Technical [PET-001193]**

Dear Ms. O'Loughlin, Ms. Rose, and Ms Schoonmaker:

The United States Environmental Protection Agency ("EPA" or "the Agency") received the Agricultural Handler Exposure Task Force, LLC's ("AHETF") petition to cancel Ragan and Massey's ("RM") registration and to deny any RM applications for glufosinate-ammonium on February 10, 2021.

On November 29, 2022, the Agency sent a letter to both parties notifying them of the Agency's interim decision regarding RM's need to cite most of the studies listed in the petition. RM responded on December 21, 2022, and RM submitted amended offer-to-pay letters to include the additional studies that EPA determined were necessary to support their registrations, thereby mooted the petition. The Agency considers the petition to be resolved.

If you have any questions, please email them to [sleasman.katherine@epa.gov](mailto:sleasman.katherine@epa.gov).

Sincerely,

Daniel Rosenblatt, Acting Director  
Registration Division  
Office of Pesticide Programs
